

## Technical Data Sheet

---

Material Reference	:	ARL/55 CRB Butyl
Description & Application	:	FOR SPECIFIC APPLICATIONS PLEASE CONTACT APPLIED RUBBER LININGS LIMITED. ARL/55 CRB is high quality black bromobutyl specially compounded for plant lining applications. The material has excellent resistance to many acids and chemicals at high temperatures.
Temperature Range	:	- 20o to 1000c (Depending upon application)
Specific Gravity	:	
Hardness	:	1. 21
Tensile Strength	:	55o_+ 5o SHORE 'A'.
Elongation At Break	:	6.5 MPa
Compression Set	:	700 %
Electrical Resistivity	:	N/A
Health & Safety	:	N/A
Typical Applications	:	See COSHH assessments.  Tanks, vessels, valves & pipework for the chemical industry.

NOTE:- INFORMATION GIVEN IN GOOD FAITH BUT DETAILS MAY  
CHANGE WITHOUT PRIOR NOTIFICATION. CUSTOMERS  
SHOULD MAKE THEIR OWN ASSESSMENTS TO DETERMINE THAT  
THE MATERIALS ARE SUITABLE FOR SPECIFIC APPLICATIO
